

Flower Planter Sponsorships

The Gitchee Gumee Garden Group, in a joint venture with the Village of Ontonagon, spearheaded a sponsorship program in 2021 to fund the 28 flower planters in the Village. The response was amazing and allowed the planters to return to the streets after being absent for a year! Donations were generously made by local businesses and individuals. Many planters were sponsored in honor or memory of someone and plaques designating that were placed on planters; others were general or anonymous donations. Garden club members selected and planted the flowers and the garden club, local businesses, and Village staff coordinated their efforts to ensure the flowers were placed and cared for throughout the summer. Also new this year, another group held volunteer work days to clean up and beautify areas along River Street. The saying “it takes a community” is true - and what a great community. Many, many thanks go out to everyone who contributed to this endeavor!
